

BRIAN STIVERS FOR PVA

BRIAN STIVERS FOR PVA

Anderson County is my home. I love Anderson County. I want to see the county be a friendly commercial location for our merchants so that we have jobs for our younger people as well as all our residents. I grew up here and went to school here. My mother grew up here and her family has been in Anderson County for several generations. I want to see the county thrive so we may all continue to see our families grow and prosper in Anderson County for many generations to come.

After graduating from Anderson County High, I went to Eastern Kentucky University where I got a degree in accounting. For the last five years I have been the Chief Deputy PVA for Anderson County. During this time, I have continued to take additional educational classes and have received the Certified Kentucky Assessor designation from the Kentucky Department of Revenue.

Being the only accountant currently in the PVA office, it has been my responsibility to review all the sales data, maintain the assessment data and complete the information to send to Frankfort to obtain approval for the property tax calendar to begin. We have always filed our data timely which enables all the taxing districts (County, School, Library, etc) to set their rates and for the Sheriff to prepare and mail the bills on time. We understand that without our timely completion of our responsibilities, the revenues for the budgets of all the county agencies could be delayed and perhaps they could be financially in a bind.

It has been great working for the people of Anderson County and I ask for your support to continue to do so. I have been an owner/operator of a small business and know some of the issues many of you face. My responsibility here in the PVA office is to both the residents of Anderson County and to the merchants who must be able to make a living. With your help and support on May 18th, I promise to do my part.

Thank you,

Brian Stivers
