

I am Randy Chrisman. I am seeking the office of 5th District Magistrate. I have been married for 27 years to Dawn Adams Chrisman. We have three Children; Emily who is married to Chris Powell and lives in Louisville. Emily is in Dental School and Chris is a teacher at Louisville Doss. Evan is a junior at Kentucky State University seeking a degree in Athletic Training. Eric is a freshman at Western Kentucky University and is working toward a Major in Psychology with a minor in Criminology. We live on Buckley Lane in Ninevah.

I am retired from the Lexington Fire Department with 20 years of service. I served there as a Major and Paramedic. We own a beef cattle farm and residential rental units in Lawrenceburg. I currently work for an Oral Surgeon helping with IV sedations and Patient care.

I have been part of this community since grade school. I served as 5th District Magistrate from 1994-1998. I am a supervisor for the Soil Conservation board. I am past President and current Vice President of Anderson County Farm Bureau. Recently, I was elected to represent the 5th District of Kentucky Farm Bureau. I was elected by the Member Delegates from 11 counties to serve on the Board of Directors.

My experience for the job includes being a Magistrate for 5 years. I was on 3 different committees; Budget and Finance, Parks and Recreation, and Public safety. While on the Lexington Fire Department I worked in the area of purchasing EMS equipment. I was in charge of procurement of everything from day to day disposable supplies to purchasing Ambulances for Lexington Fire Department. I also have experience through Farm Bureau helping to oversee the operation of Kentucky Farm Bureau Federation.

I am seeking this office because I want to serve my community, especially the Alton and West Alton area. I really enjoy speaking up for the people that may need help from the County Government. I think that the safety of our citizens is one of the most important topics in Anderson County. I believe that we have a good foundation here for public safety but we could always improve. We should think “outside the box” and look for new ways to do things. I think that an independent analysis should be done to study merged City and County Governments. I believe that we have duplication of services in many areas. We should be fiscally responsible and try very hard to not increase taxes on the people. The infrastructure should be at a level to attract new industry to our Community.

I really would like to be your Magistrate. I ask that you consider me for the Job

Thank you,

Randy Chrisman
